

INDOOR SEASON GUIDELINES for 4v4 FUTSAL EVENT

- All programs will check in at front desk.
- All patrons & players should wear a face covering when entering & exiting the DISC.
- Face coverings should be worn at all times while exercising or participating in practice or competition indoors (unless an individual has a medical condition or is under the age of 2)
- Please utilize our ONE- WAY SYSTEM. Use the lobby stairs behind the front desk as you enter down to main courts & side stairwell to exit. If siblings come, they must **STAY** with parent/guardian.
- Court limits & spectator limits are in effect. A 50% max facility limit is in place.
- Participants are encouraged to bring no more than 3 spectators each.
- Areas of courts will be sanitized in between games.
- The North baseball batting cage will be open for extra space but will not be useable for soccer players to juggle
- No soccer balls will be allowed out of players bags until immediately entering the court space other than batting cage area.
- Please social distance at all times as you possibly can.
- For all, there will be markers on bleachers & floor to assist with social distancing. Spectators are also required to wear a face covering.
- We have adjusted our schedules to allow for proper time for groups to exit & the next group to enter to avoid congregating or overlapping of patrons.
- All play is in accordance with IDPH guidelines & will be under new formats & restrictions.
- Court 2 is a designated 'open space' between courts to help with congregating.
- We will add 'breathing space' zones which are a socially distanced area where players who may be struggling with mask wearing can take their mask off for a break or to regain a steady breath

As a general rule, please try to limit how many spectators attend. If siblings come, they must be with parent/guardian.
